Introduction to Test Kitchen

20 minutes

Talk Title

How much time do you have?

Who is your audience?

What is your part in the story?

DevOps Columbia meetup group.
Small, newer meetup. Usual turnout of around 10 people.

Attendees likely know little or nothing about Test Kitchen.

Introduce Test Kitchen -
the why, the how, and the alternatives.

What does this audience need to hear?

What do you want them to know/feel/understand?

Local environments should be as similar to production as possible. Test your automation. But if you're just testing your app, maybe Docker is sufficient.

Test Kitchen make it easy to get started and will dramatically improve development workflow.
